 3. Wait and start talking about this once governance is done.
 4. Any specific courses that this will impact is defined on the website
 5. How our curriculum is not matching the current reality of the teachers: teacher autonomy, changing demographics of PK-12 students.
 6. Worthwhile to visit the idea of looking at the sequence.
 7. Way too many on the committee, community college and PK12 teacher and administrator can give input.
 8. Professional sequence is already in both models.

9. Provost wanted to push the question

15. Ripple effect this could have across program

17. Work to review our curriculum. Focus on what we will do well as faculty. Where can we improve? Education majors could use general education.
18. Faculty own the curriculum.
19. Program needs to have the right portfolio of work. How much of this portfolio is devoted to hours in Gen. Ed.? Content? Professional Sequence?
20. What are the challenges that our recent graduates are facing? What is happening in the profession nationally? What are we doing to prepare our students for this reality/environment--ESL for example
21. Start with the belief statement and outcomes that already have. Work to align with these
22. Gen. Ed. outcomes should be established by the end of the semester. End of spring 2019 semester the structure of Gen. Ed. will be established. In the fall of 2019 they will be ready to start populating Gen. Ed. with courses. We must be ready to know what we want Gen. Ed. courses to have so our students can progress through efficiently. We may need to have a more prescriptive path for our education students through Gen. Ed. This will then lead into the Professional Sequence. We need to be moving to this by fall 2019. New Gen.
